DETAILED ACTION

The indicated allowability of claims 2-8 is withdrawn. The amendment filed, November 02, 2005 has been entered and the rejection based on applicant's disclosure follow:

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 2-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over the Prior Art in Figs. 11-13 of applicant's disclosure. The prior art in Figs. 11- 13 of applicant's disclosure teaches the claimed invention except for the overall design of applicant's holding portion. It would have been an obvious matter of design choice to have a holding portion as recited in the claims, since applicant has not disclosed that having a specific holding portion solves any stated problem or is for any particular purpose and it appears that the invention would perform equally well.

Response to Arguments

Applicant's arguments with respect to claims 2-8 have been considered but are moot in view of the new grounds of rejection.
